ABOUT PRAGYATA FOUNDATION

Pragyata Foundation is a registered Non-Profit Organisation which has been conducting activities for the security of human rights, promotion and protection of child rights, women empowerment, education, health and welfare programs, awareness workshops and the MDG's with complete determination.

Established on 28th October 2015, the foundation has events being organised keeping various aspects in mind. In fact some projects started on a personal level even before the establishment of the foundation which are being continued successfully since June, 2015.

We launch projects that have various goals. These goals are decided on basis of a lot of things that overlap the differences and make it tough for the victims to revive. These include programs taking hold in fields of education, development of soft skills, health and family welfare, Women Empowerment, Environment protection, Child Rights, Awareness programs and many more; so that every citizen of the nation understands his rights and duties along with the legal codes of protection to create opportunities for themselves as well as become independent. We extend our full support in providing each and every thing that takes us to the success of our goals to a huge level.

OBJECTIVES

- ☑ To make awareness among people, to adopt the ethical conduct, how to be a good citizen, and to inculcate ideals of national unity in the people.
- ☑ To establish computer labs, libraries and reading rooms for the needy communities.
- ☑ To organize forums, seminars, workshops, camps etc. for spreading good living habits, moral values, indian culture and methods of developing self confidence etc. and to create centres across the country for the above activities.
- ☑ To create training/ education centres and health centres.
- ☑ To provide help/shelters/facilities to children for their welfare.
- ☑ To arrange lands, buildings and other facilities for running schools/colleges/ institutions/ libraries etc.
- ☑ To raise funds through collection, donation and subscription with other means and to invest them properly in order to achieve our aim.

PROJECTS UNDERTAKEN

PROJECT AGAAZ - An Educational Campaign

The project Agaaz is about empowering everyone with the weapon of knowledge and education in various fields like English language, computers etc. It's a continuous on-going project. A variety of activities are held under it, some(not limited to) regular cost-free classes with tutors, stationary, boards and study material. Some special events like picnic, lunch and important days along with festive celebrations with the needy are also held. The underprivileged enter our sessions with hope to learn something new and we ensure that they return overwhelmed.

PROJECTS UNDERTAKEN

PROJECT JAGRITI - Mission Awareness

This special project is set apart because it aims to create awareness about every field that affects the life of an individual. It has been conducting workshops, street plays and surveys to aware people about the importance of education, health awareness, making women aware about their rights, environmental awareness etc. Events do not just include sessions on human rights environment, women empowerment, role of education, child rights and protection but, they extend much beyond to create awareness in fields like computers which play a vital role in our lives today.

PROJECTS UNDERTAKEN

PROJECT LAKSHAY - Competitions and Olympiads

Project **LAKSHAY** includes different kind of competitions and olympiads taken from various aspects and fields. They don't just cover Education but also various curricular activities. Our main motive behind conducting these competitions is to explore hidden talents among children. These talents could include anything like drawing, painting, singing, dancing etc. In this project the children also access free explanations, basic knowledge and materials required to participate.

PROJECT VIDYA- Library & Computre Lab Setups (UPCOMING)

Project Vidya is an initiative to nurture reading habits and skills in children and adults of all age groups from the underprivileged and remote areas. It aims to facilitate them with computers & good academic and non - academic literature. We plan to arrange books and notebooks and set up libraries & computer labs in these areas so that these are available for the children and people when they need them the most. These will include a variety of books from literature in Hindi & English to Maths, Science, Arts, Computers, language learning, story books and from comedy to books on life & psychology across all ages. As we know, computers are the world of tomorrow, their immense usefulness is self-explained. We are putting our best efforts for this amazing program. The noble deed will enable the underprivileged to enjoy the wonders life has to offer, and will also prosper in our nurturing environment.
